

Using the Projector in the A-Building

****If any issues arise, please text 336-355-3182****

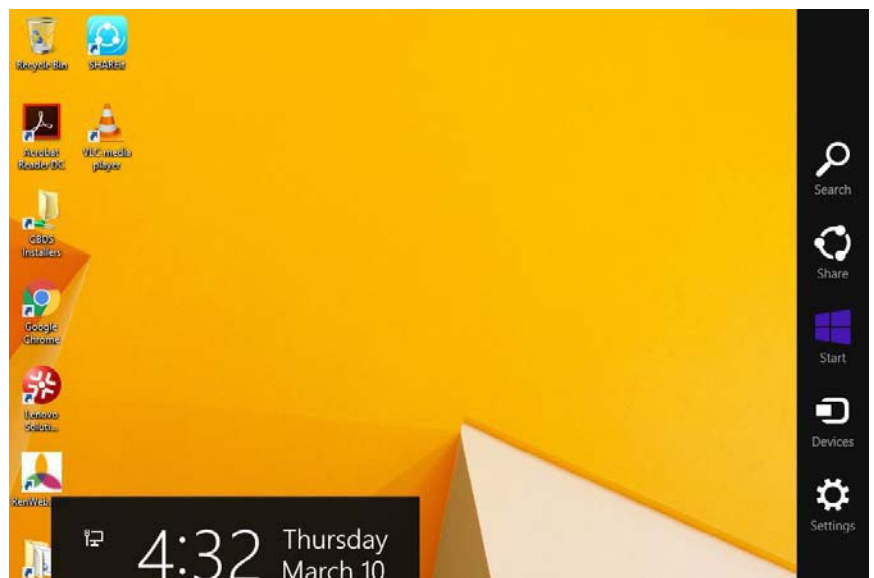

- Wiggle the mouse/Click on the screen to get the log in screen to come up
- Click on the back arrow button and click Other User or Switch User
- Username: calbap\cmember Password: calvaryun1ted
- To use RightNow Media: go to rightnowmedia.org
- Username: rightnow@calvarynow.com Password: rightnowmedia
- Click on My Profile (top right) and then click on My Queue to find your study. Then follow instructions below for the projector
- To use a DVD: Insert DVD into back, right side of screen
- Click on the folder icon in the bottom left handscreen

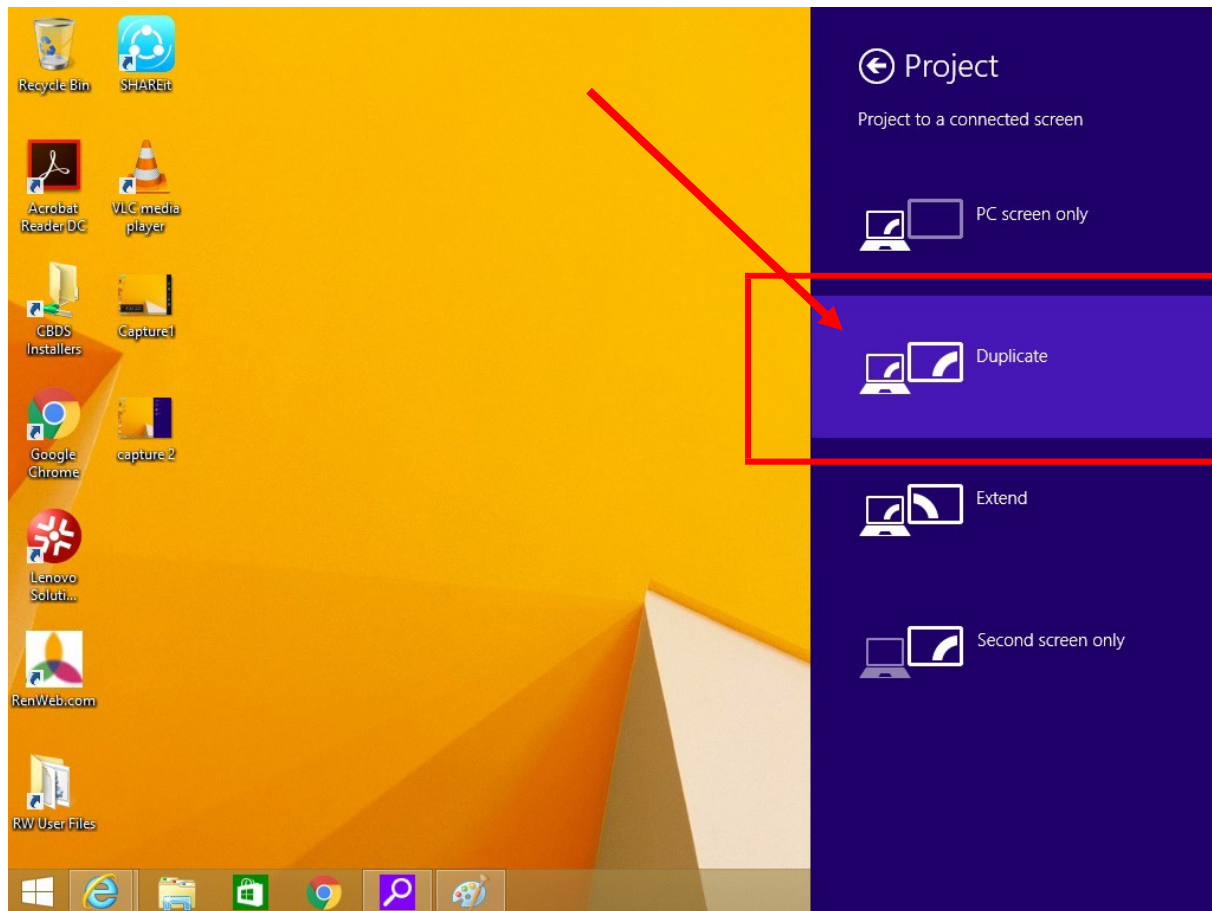

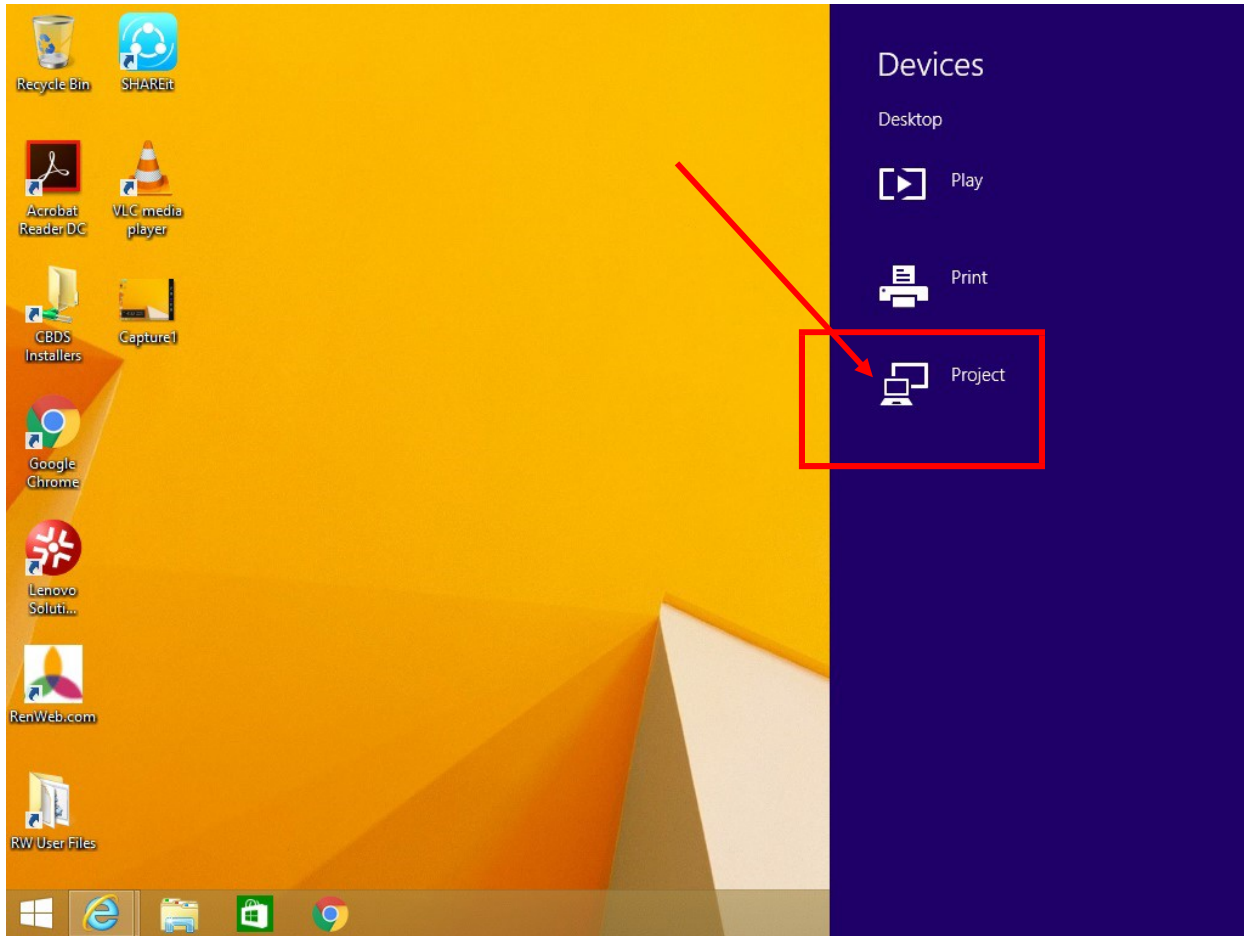

- On the left hand menu, under where it says Computer, double click on the DVD

- Turn on the projector with either the remote in one of the day school teacher's drawers, or manually push the on button on the projector on the ceiling (you'll either need someone really tall or someone to stand on a chair).
- The computer screen/DVD should automatically come up once you turn on the projector. The projector sometimes takes a few minutes to warm up when you turn it on. So give it a few minutes and the image from your computer screen should appear.
- If it does not appear, simply use your finger swipe to the right on the right side of the screen (the PC's in the Day School rooms have touch screen capability) and click on Devices. Then click on Projector. Then click Duplicate (see pictures below)

- If you do not have sound, click on the speaker icon on the bottom right of the screen to turn the mute off and adjust the volume
